## Medical Supply Portfolio -- More Information CAHSAH'S Group Purchasing Program through Provista

Dear CAHSAH Member:

**Provista** is a medical supply chain improvement company with over 1400 product and service agreements. Their portfolio represents thousands of items used daily in providing home care at a price that has been negotiated and leveraged through **Provista's** national buying power.

Among these are agreements with most of the national and regional medical supply distributors. When you connect **Provista** to your current or new distributor, you will still be able to order the same way and access the same products as before. Utilizing your distributor and **Provista** together will allow you to gain access to a wider and more valuable portfolio that will help save even more dollars for your agency.

The following **Provista** distributor agreements include but are not limited to:

- Medline
- McKesson
- Cardinal
- Medical Specialties
- PSS
- Gulf South
- Home Healthcare Solutions

With spiraling costs of health care services and the shifting of private and public funding sources, it is more important than ever to help our members find solutions that will increase their bottomline. **Provista** has a dedicated cost analysis team to assess your current purchases and show where **Provista** can provide value. *Why not access this free resource?*
