The Home Health PPS Regulation for implementation January 2017 has brought about changes to the PPS System, but most importantly more cuts in reimbursement. The billers and collectors are extremely important to agencies thriving in the current system so do not miss this needed education!

Be the first to be current on all Medicare billing regulations implemented in 2017. This workshop will lay a concrete foundation for home health billing, as well as, financial staff by giving billers a more effective approach to the Medicare PPS regulation, conducting Medicare verifications and understanding adjustments. We will discuss Medicare verifications on patients with HIQH/HETS screen examples & review adjacent episode calculations - field by field on claim forms.

We will review the process of auditing a pre-bill for final claim purposes, both Medicare and Non-Medicare Payers, and review the details of billing for Non-Routine Supplies using billing guidelines. More and more scrutiny of agency records has been taking place in the form or ADR and RAC reviews. This session will outline the current risks and outline steps to manage that risk. If you are part of the revenue cycle in your agency this session is a must.

At the conclusion of this workshop, participants will be able to:

- Calculate and evaluate the HHRG, HIPPS Code and Episode Exceptions.
- Verify Medicare Eligibility of patients and calculate Adjacent Episodes. Complete a RAP and Final Claim form.
- Describe the process for effectively auditing a Chart for purposes of identifying prebill issues and Medicare Secondary Payor Issues.
- Establish processes to improve revenue cycle management.
