You must be present for the entire program to earn continuing education credit. No partial credits can be given.

Certificates are distributed at the close of the program.

Overview

The Patient-Driven Groupings Model (PDGM) represents the most significant change to the Medicare Home Health program in the 21st Century. It will radically change the payment methodology, including the unit of payment, the case mix adjuster, Low Utilization Payment Adjustment standards, and payment for Non-Routine Medical Supplies.

By attending this workshop, you will be fully prepared to successfully navigate these radical changes coming to Home Health care. You cannot afford to miss it!

Program Topics:

With program sessions, within this one-day workshop, covering a variety of topics including a PDGM Overview, Clinical, Financial, Operations, Business Analytics, and Technology, you will:

- Gain a better understanding of what PDGM means for you and your agency
- Identify key threats to the Home Health industry and how to overcome them
- Strategically develop a process to lessen the impact of PDGM on your Home Health agency
- Discuss the steps NAHC has taken, is taking and will take in the future to address areas of concern.

The National Association for Home Care & Hospice (NAHC), in partnership with the NAHC Forum of State Associations, the Home Care and Hospice Financial Manager Association, and the Home Care Technology Association of America is embarking upon a series of 12 one-day workshops across the country specifically focused on the upcoming changes to PDGM. For information on sponsoring all 12 workshops, please contact Christopher Adams at cta@nahc.org.
