Certificate of Completion & CEU Credits

Provider approved by the California Board of Registered Nursing (Provider # CEP17394) and by the California Board of Physical Therapy PTB (Provider #3780) for thirteen (13) contact hours of continuing education.

You must be present for the entire program to earn continuing education credit. No partial credits can be given.

Certificates are distributed at the close of the program.

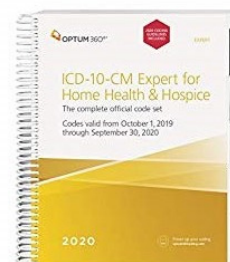

Overview

Now includes what coders need to know about PDGM! Change is the name of the coding game. New codes, new tabular list changes, new guidelines and new Coding Clinic interpretations, plus new home health payment changes require us to stay ahead of the game. Increase your knowledge and understanding and gain the expertise your agency needs to survive in this comprehensive two-day intermediate coding course specific for home care coders. Increase your understanding of the regulatory aspects and ethics of diagnosis coding and utilize lots of examples to increase your skills, proficiency, speed and accuracy in choosing the appropriate ICD-10-CM codes. Attendees will be able to demonstrate proficiency in complex coding scenarios and be ready to tackle home care charts with confidence. We will apply Prospective Payment System reform, known as PDGM, to scenarios so that home health participants will understand payment implications and compliance issues. With government auditors targeting home care, now is the time to ensure that you are coding correctly and protecting your revenue.

Required Resource

The most current version of ICD-10 coding manual is available through the [CAHSAH® Bookstore online](#), or call 916-641-5795, ext. 113.

CAHSAH Members \$180 | Non-Member \$220

Program Goals

- Apply operational aspects of PDGM.
- Apply specific sequencing rules as required by the conventions and Official Coding Guidelines.
- Explain coding of diagnoses of infections, neoplasms, endocrine disorders such as diabetes, anemias, mental disorders, and the nervous system.
- Explain coding of diagnoses of cardiorespiratory illnesses, cerebrovascular disease and GI & GU disorders.
- Explain coding of diagnoses of the musculoskeletal system, injuries and poisonings, including the optional use of V, W, X and Y codes.
- Describe the purpose and appropriate use of Z codes.
- Use the coding manual to find codes and sequence diagnoses for home care and hospice scenarios in ICD-10-CM.
- Prioritize diagnoses based on clinical assessment and planned interventions.
