Certificates are distributed at the close of the program.

Overview

PDGM is HERE!

Success Comes From Continuous Operational Improvements: Lessons Learned in PDGM 2020 Q1.

The Patient-Driven Groupings Model (PDGM) represents the most significant change in the Medicare home health program in the 21st Century. It radically changes the Medicare payment methodology, including the unit of payment, the case mix adjuster, Low Utilization Payment Adjustment standards, and payment for Non-Routine Medical Supplies.

Program Topics:

- Gain a better understanding of what it takes to be a winner in PDGM;
- Identify key steps that are proving successful in managing services under PDGM;
- Recognize the actions that create unnecessary risks for your HHA; and
- Determine the early clinical and financial benchmarks that distinguish the successful HHA from others.
- Attending one of these summits will fully prepare you to undertake any needed course corrections in your PDGM management, along with reinforcing the actions that you have already taken to ensure a positive outcome throughout 2020 and beyond.

ADDITIONAL WORKSHOP DETAILS

In 2019, the National Association for Home Care & Hospice (NAHC) provided thousands of home health leaders across the country with the knowledge they needed to ensure their agencies made a smooth transition to the Patient-Driven Groupings Model (PDGM), the biggest change to home health payment in the 21st century.

With PDGM now impacting agencies, NAHC is assembling a team of experts focus on lessons learned; what's working or not working and what some agencies are doing to thrive and how others can learn from them. For information on sponsoring at a national level, please contact Christopher Adams at cta@nahc.org.
